West Sussex County Council
Worthing: Salvington Road (Cotswold Road/Acacia Avenue Junction)
Traffic Calming Measure 2024

NOTICE is hereby given that West Sussex County Council, under the provisions of the Highways Act 1980 (Traffic calming) Regulations intends to install a raised traffic calming feature on Salvington Road in Worthing in Worthing.

A speed table feature would be installed at the crossroads junction of Salvington Road with Cotswold Road and Acacia Avenue. This feature would be 21 metres in length and extend 5.5 metres into Cotswold Road and Acacia Avenue.

The feature will be constructed from black macadam and would be 65mm in height. The ramps for each feature would be 1.5 metres long.

Full details of the proposals in this notice can be viewed on our website at www.westsussex.gov.uk/tro. The website includes a response form for any comments or objections.

People without access to a computer who wish to view details of the scheme should telephone the West Sussex County Council Contact Centre on 01243 642105 to receive the documents by post.

Any comments or objections about the proposal must be received before 16 May 2024. These may be submitted via the response form on the website mentioned above, by e-mail to tro.consultation@westsussex.gov.uk or in writing to TRO Team, West Sussex County Council, The Grange, Tower Street, Chichester, PO19 1RH. For legal reasons, only correspondence including a full name and address will be considered. Please quote reference WOR8028-MM in all correspondence.

Dated this 25th day of April 2024
Director of Law, Assurance and Strategy, County Hall, Chichester.

West Sussex County Council
Worthing: Salvington Road (Cotswold Road/Acacia Avenue Junction)
Traffic Calming Measure 2024

Background Note

West Sussex County Council proposes to introduce a raised traffic calming feature on Salvington Road in Worthing, at the crossroads junction with Cotswold Road and Acacia Avenue.

The School Governors at Durrington Infant & Junior School have requested a Community Highway scheme to address concerns about safety for pupils crossing the road at the junction of Salvington Road with Cotswold Road/Acacia Avenue. The raised feature is proposed to reduce traffic speeds and provide suitable crossing points.

In addition to raised feature the kerb lines at the junction will be altered to improve visibility and tactile paving installed in the footway to encourage pedestrians to cross the roads at the safest point.

If approved, works will include carriageway repairs and will be scheduled for the school summer holiday to minimise disruption.

The scheme is therefore proposed to avoid danger to persons or other traffic using the affected lengths of road.

The attached drawing, titled General Arrangement Detailed Design shows the layout of the proposed scheme.
